4- Interested in on farm realtime ultrasound fat and muscle depth measurement service ?

Yes* **No**

* Fees apply, please visit genovis.ca website for more details.

5- By enrolling in the program, you agree to :

- For the option 2 : Sign and respect the conditions of the genetic service contract. This contract includes a visit by a CEPOQ genetic team resource and a free access to GenOvis online program.
- Allow the publication of genetic information for all animals in the flock with genetic indexes (GAIN, CARC, MAT, MAT-U, MAT-HP, MAT-UHP) in the top 50% for their breed.
- Send real and accurate data.
- Allow access to the genetic values of your entire flock to estimate the genetic values of the offspring in the GenOvis' mating module.
- Allow publication of your name, address, contact information, breeds and # of animals tested in all publications concerning the GenOvis Program, as well as both the CEPOQ and GenOvis websites.
- Volunteer the use of your data for use in related studies and research projects.
Data will be supplied anonymously with no financial compensation.
- Possess and use an accurate weighing scale suitable for sheep. (Calibration service offered by CEPOQ. Fees apply.)
- Pay the annual enrolment fee of \$297 + taxes for 2025 (see Section 6)

The CEPOQ has the right to exclude from the program breeders who falsify their data or do not respect these commitments.

The CEPOQ is not responsible for the quality of the breeder's raw data submitted for the EPDs and calculation of the indexes.

The fees applied may change without notice and CEPOQ reserves the right to refuse the application of a given price (ultrasounds service).

6- Payment terms to the genetic development fund

Option 1:

A single payment of **\$297 + taxes = \$341.48**

Payment by: Cheque AccèsD Etransfer Credit card

Option 2:

\$719 + taxes (subsidy available from Réseaux Agriconseils that covers 50 to 85 % depending on your area)

The fees for this service will be due only at the time the visit will be done.

Please send your payment to CEPOQ with your completed enrolment form

7- Additional charges for the use of CEPOQ's data entry service

These fees apply for lamb data provided in non electronic format as PDF and JPG.

These fees are not included in the annual membership (\$297).

Additional charges for CEPOQ data entry service:

-Current data: \$1.45 + taxes per lamb entered at CEPOQ by our staff for a maximum of \$750 by year.

-Historic data: \$1.45 + taxes per lamb entered at CEPOQ by our staff for a maximum of \$750 by year.

-Incomplete ID: \$40 per page of lamb data having incomplete parents ID (ATQ: 9 numbers, tattoo: CEPO258C)

Data is considered "current" until 8 months after the 50 day weighing date, after which it is considered historic data and subject to an other limit of \$ 750 per year.

Check this box if you authorize the publication of you flock information (raw data, genetic evaluations, flock averages, ect.) needed for the implementation and selection of awards winners related to GenOvis in all publications form OSF, CSBA, CEPOQ and partners, as well as on these organizations and GenOvis websites.

GenOvis is managed and overseen by the Centre for Genetic Improvement of Livestock (CGIL), the Ontario Sheep Farmers (OSF), the Canadian Sheep Breeders' Association (CSBA) and the Centre d'expertise en production ovine du Québec (CEPOQ).

CGIL runs genetic evaluations, stores the databases and provides the online user's software.

CEPOQ delivers the GenOvis program to members.
